These are the first three work plans completed that follow the assessment approach outlined in the, "200 Areas Remedial Investigation/Feasibility Study Implementation Plan – Environmental Restoration Program," (DOE/RL-98-28) for characterization and remediation in the 200 Areas. They contain the elements of a Comprehensive Environmental Response, Compensation and Liability Act of 1980 remedial investigation/feasibility study (RI/FS) work plan and Resource Conservation and Recovery Act of 1976 (RCRA) Treatment, Storage and Disposal (TSD) Unit Sampling Plan. A sampling and analysis plan and waste control plan accompany each work plan as appendices.

Public review comments received on the Draft B 200-CW-1 and 200-CS-1 Work Plans have been dispositioned and incorporated accordingly. Comments received on the review of DOE/RL-99-44, Draft B, 200-CS-1 Operable Unit RI/FS Work Plan and RCRA TSD Unit Sampling Plan from the Nez Perce Tribe have been dispositioned and incorporated, where appropriate. A copy of the response to the Nez Perce Tribe's comments is attached.
